# CONTENT

# CONTEXT AND GOVERNMENT ORIENTATIONS

National Economic and Social Development Plan (PNDES II)

Sector policies: Agriculture, Environment, Industry, Trade and Research/Innovation

National Strategy for the Development of the Cashew Sector (SNDA)

- Increase orchard yield to 600-800Kg/Ha by 2024
- Achieve an annual production of 200,000 T in 2024

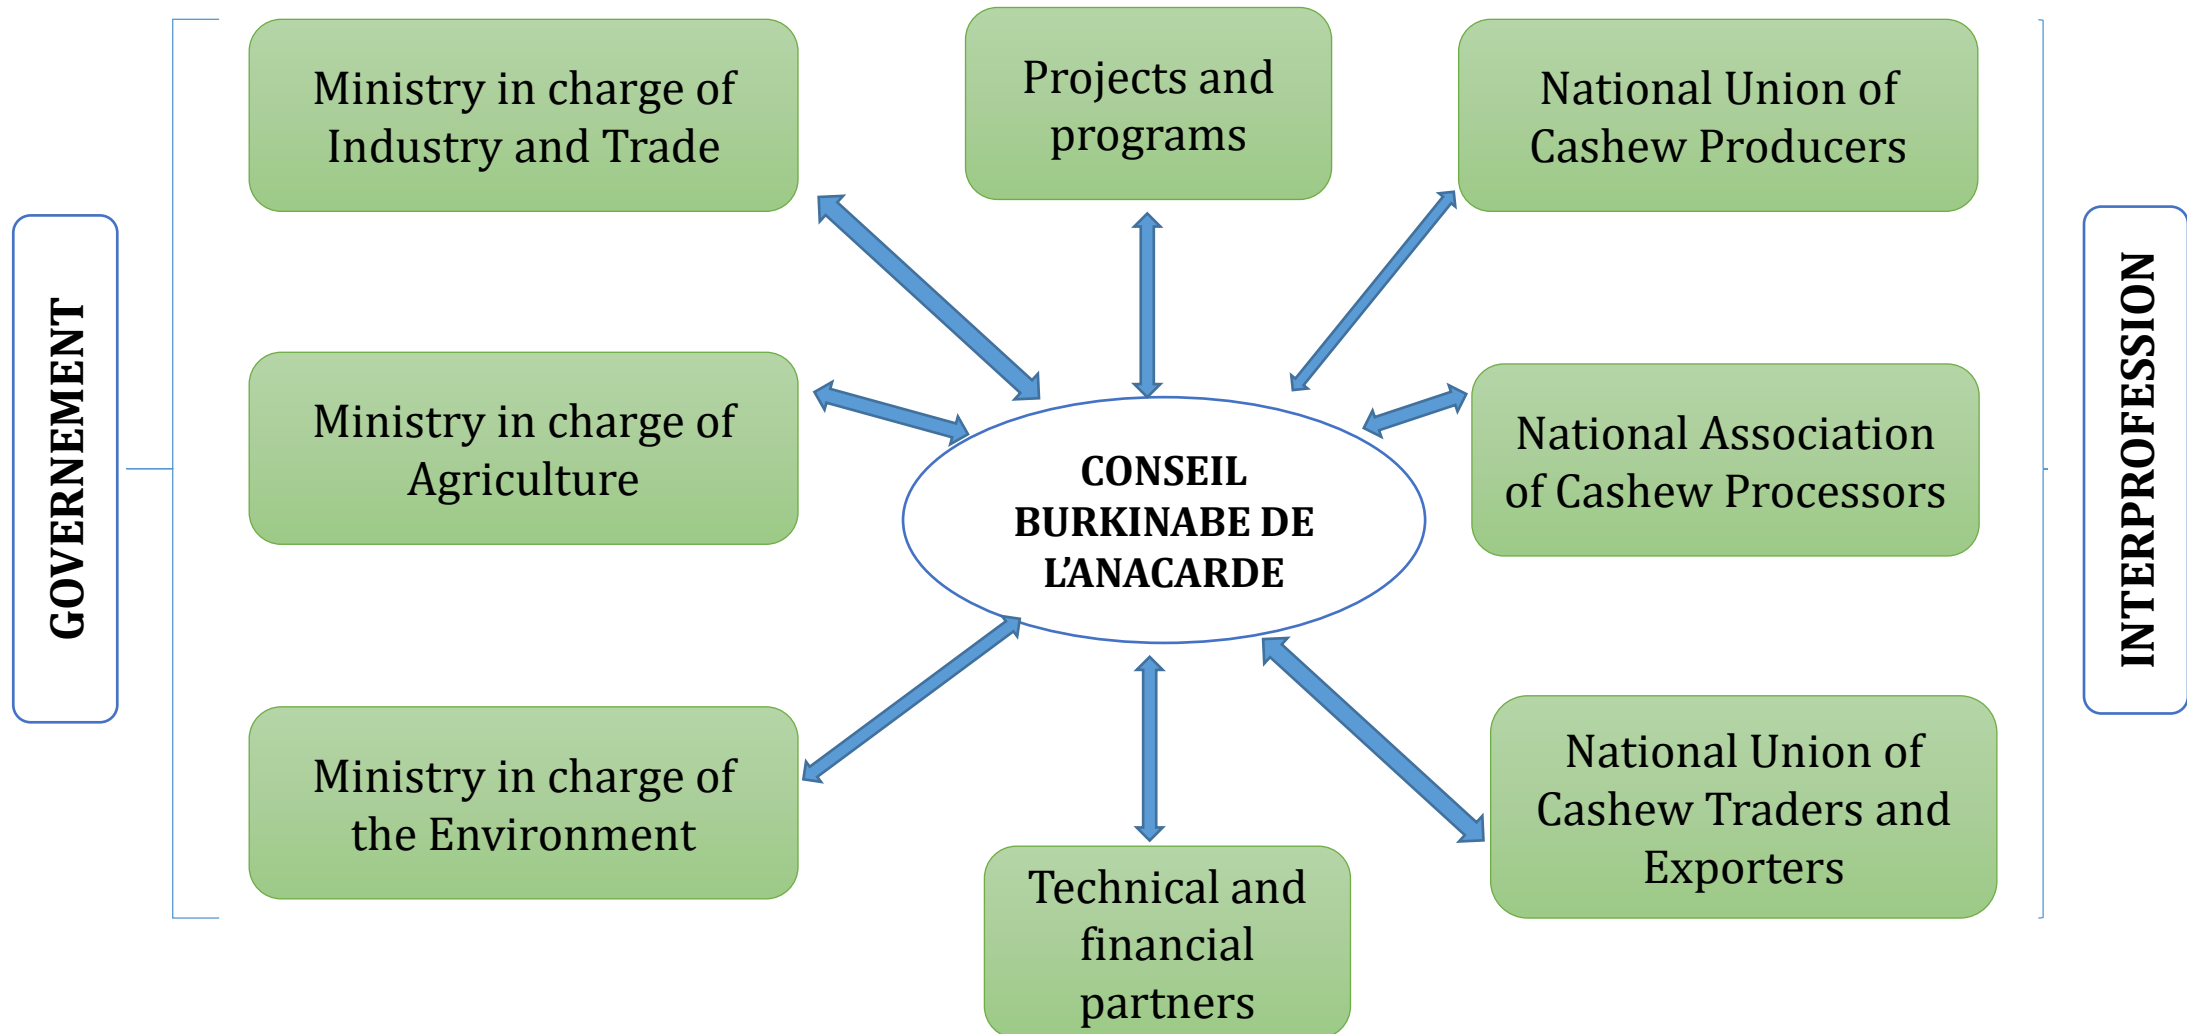

National Industrialization Strategy (SNI)

## Cashew Initiative

- Improvement of national cashew processing capacities (RCN and apple) - target 45% in 2024
- Regulation of the internal market and access to markets (farm price, professional approval, diversification of outlets)

# SECTOR ORGANIZATION

# MAJOR INCENTIVE MEASURES TAKEN

## PRODUCTION

- Subsidy: agricultural equipment
- Strengthening the technical and professional capacities of producers
- Supply of jute bags and organic manure

## TRANSFORMATION

- Loans at subsidized rates: working capital
- Investment Code: tax reductions and exemptions for investment and operation
- Strengthening the technical and professional capacities of processors

## MARKETING

- Loans at subsidized rates: working capital
- Strengthening the technical and professional capacities of traders
- Accompaniment of actors for participation in national and international fairs/shows

# PUBLIC and PRIVATE INVESTMENTS IN THE SECTOR AND THEIR IMPACTS

## PRODUCTION

Measures to improve quality and increase production

The mastery of good agricultural practices, the proper maintenance of orchards and the creation of new orchards

## PROCESSING

Incentive measures of the Investment Code

The installation of five (05) new functional units

## MARKETING

Regulation of the national market through regulations and controls

Regulation of marketing

# SHORT AND MEDIUM TERM OUTLOOK

## SHORT TERM

- Building of a cashew house
- Providing producers with improved plants and grafted plants
- Training of cashew producers in BPA
- Implementation of professional accreditations
- Promotion of local consumption
- Equipment of artisanal cashew processing units
- Establishment of a reference processing unit with a capacity of 30,000 tons with a training center
- Subsidy for the development of business plans and investment code approval files

## MIDDLE TERM

- Establishment of a database on the cashew sector in collaboration with Cashew-In
- Establishment of an appropriate financing system for actors in the cashew sector
- Establishment of a network of professional nurseries
- Development of high-performance plant material with research
- Upgrading of industrial cashew processing units
- Support for the establishment of apple and cashew shell processing units
- Establishment of a cashew nut pricing mechanism and a smoothing fund
