Part 2.

PRODUCTION GROWTH CONDITIONS

Rainfall: Overall good

Weather disturbance: late harmattan

Flowering and fruiting: Correct

Parasitic attacks: low, little influence

Bringing more than 200,000 ha up to standard

More than 2 million trees in production

More than 60,000 ha of new plantations being installed

Part 3.

Forecast 2022

- **Expected growth in harvest: around 10%**
- **Production size estimated at around 208,000 Tons**
- **Drop in exports of around 21%**
- **Increase (584%) of local processing to 60,000 T**
- **Better nut qualities expected**
- **Price set on the basis of a study on the structure of the cost of production**
- **Start of campaign: March 10, 2022**

Part 4.

Challenges 2022

- **Control of outputs by terrestrial voices**
- **Construction of new stores to standards**
- **Implementation of a plant supply monitoring system**
- **Implementation of a removal control system**
- **Installation of specific bags**
- **Issuance of export quality certificate**

Part 5.
